

## Cupani Garden

### Plants for sale May 2022

We were given a large quantity of end of season 2021 plants by Marchants Hardy Plants. Those that are left are all marked with \*

As the large pots for the roses are expensive, we have added a 50p surcharge on all the roses for the pot, which will be refunded if the pots are returned.

Since our first list we have managed to acquire some new plants, which are marked NEW, and are also in our NEW table below. While we only purchased small quantities of the more expensive ones, we can usually get more of these to order.
